

<Kirtan Kapatel/>

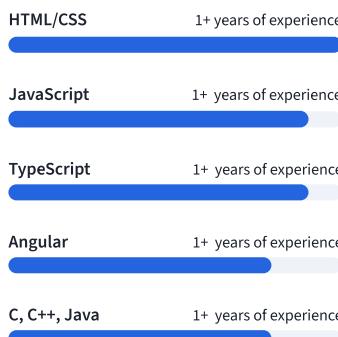

A highly motivated and detail-oriented Computer Applications graduate with strong foundational knowledge in both frontend and backend development. Proficient in frontend technologies like HTML, CSS, JavaScript, and React for building dynamic, responsive interfaces. Skilled in backend development using PHP, Node.js, MongoDB, and MySQL, with a solid understanding of DBMS concepts. Well-versed in developing applications using ASP.NET Core and VB.NET. Additionally, skilled in using Figma for UI/UX design and prototyping. Seeking an opportunity to contribute technical expertise and innovative problem-solving skills to a forward-thinking development team.

Technical Skills

Total skills in programming languages and web technologies relevant to my current role.

Additional skills

SQL, React, GIT, Bootstrap, MySQL, MongoDB, REST API, NodeJS, ASP.NET CORE, Firebase, Express, GitHub, PHP, Python, Tailwind CSS

Platforms

Postman, VSCode, NetBeans, Spyder, Anaconda, Jupyter, Figma, Canva, Android Studio, Netlify, Framer

Soft skills

Leadership, Management, Team Collaboration, Adaptability, Excellent communication, Problem-Solving, Creativity, Responsibility, Empathy

Relevant Projects

Projects that closely matches the role or skills required for a job or opportunity.

DeepSeek Clone | May 2025 - Jun 2025

Tech stack: ReactJS, Tailwind CSS, ExpressJS, NodeJS, MongoDB

- Built a fully functional DeepSeek clone with features like user authentication, role-based authorization using JWT tokens and bcryptjs for secure password hashing.
- Integrated Axios for API communication and js-cookie for securely storing and managing user sessions via cookies.
- Implemented Framer Motion for smooth UI animations and React Router DOM for seamless navigation between authenticated and public routes.
- Designed a fully responsive user interface using Tailwind CSS, optimized for all screen sizes including mobile, tablet, and desktop.
- Gained hands-on experience with backend interaction, secure login flow, and managing user state using cookies and tokens.

Portfolio Website | May 2025

Tech stack: ReactJS, Tailwind CSS, TypeScript

- Developed a personal portfolio website using React.js, TypeScript, React Router DOM, and Tailwind CSS to showcase projects, skills, and contact details.
- Integrated Framer Motion to add smooth, modern animations for enhanced user experience and interactive UI transitions.
- Designed a fully responsive layout optimized for mobile, tablet, and desktop screens, ensuring accessibility across all devices.
- Strengthened expertise in Tailwind CSS and responsive design principles, enhancing frontend development and layout structuring skills.

Infotech Website | Feb 2025 - May 2025

Tech stack: ReactJS, Tailwind CSS, TypeScript

- Led the development of a service-based company website offering software development solutions including web and mobile app development.
- Worked as team leader of a 6-member team, managing task distribution, progress tracking, and ensuring smooth collaboration throughout the project lifecycle.
- Contributed hands-on to a specific module, balancing technical implementation with project coordination and support for team members.
- Gained valuable experience in team management, time management, and effective communication and collaboration in a real-world client project.

Work Experience

Career experience that contributes to my professional growth.

May 2025 - Current — **UI/UX Developer Intern | Remote**

NativeSoftTech

- Contributed to the development of TRAMBLE, a user-friendly movie ticket booking app focused solely on movies—excluding unrelated sections like Events or Sports for a clean and intuitive experience.
- Responsible for the complete design lifecycle, including wireframing, interactive prototyping, and creating the final working UI using modern design principles.
- Gained in-depth proficiency in Figma, mastering features like auto layout, components, variants, and responsive design techniques.
- Collaborated with developers and teammates to ensure smooth design-to-development handoff, aligning UI components with technical feasibility.
- Enhanced skills in UI/UX design, visual hierarchy, and usability, creating an interface that balances aesthetics with functionality.
- Developed a design mindset focused on simplicity and user needs, translating ideas into intuitive experiences that reflect real-world use cases.

Nov 2024 - Apr 2024 — **Software Developer Intern | Remote**

HummingByte

- Completed a remote internship focused on delivering hands-on software development experience, covering both frontend and backend technologies.
- Received structured training and revision sessions on core technologies including HTML, CSS, JavaScript, React.js, MongoDB, Node & Express strengthening foundational knowledge.
- Applied learned skills by building a full-stack project using the MERN stack (MongoDB, Express.js, React, Node.js), demonstrating practical application of technologies.
- Gained key skills in component-based architecture, RESTful API integration, state management, and responsive UI development.
- Improved soft skills like remote collaboration, self-discipline, task ownership, and working effectively in a virtual development environment.
- Developed a problem-solving mindset, enabling me to break down complex tasks, troubleshoot efficiently, and deliver reliable code in real-world scenarios.

Dec 2024 - May 2025 — **Web Development Intern | Remote**

Jinarth Infotech

- Revised core web technologies including HTML, CSS, and JavaScript during the first month, followed by the development of a small project demonstrating mastery of frontend fundamentals.
- Progressed to learning the MERN stack (MongoDB, Express.js, React.js, Node.js), quickly adapting to full-stack development with hands-on project work.
- Due to strong performance, was promoted to Junior Developer and assigned to a real client-based project, where I took ownership of one key module.
- Appointed as team leader for a 6-member group, responsible for task delegation, timeline tracking, and ensuring smooth collaboration between frontend and backend teams.
- Gained valuable skills in project management, team coordination, version control (Git), API integration, and building scalable, responsive UIs using modern JavaScript frameworks.

May 2024 - Current — **Web Developer**

Virtuant Infotech

- Contributed to multiple full-stack projects using the MERN stack and ASP.NET Core MVC, delivering secure, scalable web applications with clean architecture and efficient data handling.
- Built responsive, user-friendly interfaces using React.js, Tailwind CSS, and Bootstrap, while applying strong UI/UX design principles to enhance usability and user engagement.
- Developed backend APIs with Node.js, Express.js, and Entity Framework, ensuring performance, scalability, and secure communication with frontend systems.
- Designed wireframes, graphics, and interactive prototypes using tools like Figma, Adobe XD, and Photoshop, supporting seamless design-to-development handoff.
- Worked in an agile development environment, participating in sprints, code reviews, and leveraging Git and Postman for version control and API testing; gained hands-on experience in cross-functional teamwork and end-to-end project delivery.

Certifications

Career experience that contributes to my professional growth.

Education

Educational background that builds a strong foundation for continuous learning and professional excellence.

The CVM University | Aug 2021 - May 2024

- Bachelor of Computer Applications (BCA)
- CGPA : 9.84/10
- Anand, Gujarat, India

12th | June 2020 - May 2021

- GSEB - Commerce
- Percentage : 83.85%
- Anand, Gujarat, India

10th | June 2018 - May 2019

- GSEB - General
- Percentage : 82.33%
- Anand, Gujarat, India

Languages

Language proficiency that enhances my global communication and collaboration skills.

English
